

Do Contribute!

Contributions are welcome from students and faculty members across all academic institutions. The portals for submitting all kinds of content can be found on our [website](#). More specific details regarding the content can also be found there, so please take a close look at the linked page if you are interested in contributing. For any queries, reach out to us at scicomm@iiserkol.ac.in.

Science Articles: We publish write-ups on interesting ideas in science, as long as the content is accessible to a broader audience and not just to the experts. Submit your articles [here](#).

Short Summaries: In order to showcase the frontiers of research, we publish short summaries (350-400 words) of recently published science research articles. The summary should broadly lay out the questions being asked and the new results obtained. Submit your research stories [here](#).

Quizzes and Games: We also feature science games such as crosswords, quizzes and word-link games. If you have content for these games or have new interesting games in mind, please pass them on to us via our email.

Interview Recommendations: If want us to interview specific scientific personalities or if you have an interview that you want to publish, please send us an email.

Submissions are accepted on a rolling basis, so send in your content whenever you are ready. Finally, but very importantly, we would love to hear any feedback that you might have about this endeavour, so please send us your comments at scicomm@iiserkol.ac.in.

The Team

We are currently looking to expand our team. If you are interested in what we do and are confident that you will be able to devote time to this, please reach out to us at scicomm@iiserkol.ac.in. We will be happy to discuss possible roles for you depending on your skills.
